

QUALITY BY DESIGN

MARITIME CIRAS

The Maritime CIRAS (MAR-CIRAS) is designed to allow the end user to rapidly jettison the armor platform. This aids in ease of use during WMD Decontamination, access to a wounded officer, and Maritime Operations.

Features:

- US Patents: 7,047,050; 7,020,897; 6,948,188 and 6,769,137
- Heavy-duty, abrasion- and water-resistant 500 denier CORDURA® nylon exterior construction
- Utilizes patented single-point release system for positive release of carrier
- 1" MIL-Spec webbing cross straps for mounting MOLLE pouches
- Detachable shoulder pads
- Four rows of integrated loop PALS webbing for placards on front and back or attachment of MOLLE pouches
- Rear drag handle
- Internal and external cummerbunds for tight, secure fit
- Fully adjustable for height and girth
- Weight 4.56 lbs.
- Compatible with detachable ballistic accessories (all sold separately):
 - BC-STL (Ballistic Collar Protector)
 - BDP-STL (Ballistic Deltoid Protector)
 - BGP-STL (Ballistic Groin Protector)
 - BSP-STL (Ballistic Bicep Protector)

Note: *Armor is not included. Eagle Industries CIRAS Vest is cut for SPEAR/BALCS armor, and sizing is based on armor size and not end-user body size.*
